

Signal Protect Silver >> Radio Frequency / Microwave Shielding Window Film <<

Signal Protect Silver is our economical, reflective, Radio Frequency/Microwave window shielding film with water activated adhesive. Designed to protect indoor living space from a wide range of analogue and pulsed digital signals from exterior sources such as Microwave Transmitters, Cell Phone Towers, neighbors Cordless Telephones, Smart Meters, Wi-Fi signals and more. Other benefits include improve safety, security, energy efficiency and UV protection

Application

- For interior glass installations – to be installed on the inside of windows
- Ideal for retrofit of windows and glass surfaces
- Commercial and residential applications

Warranty

Limited Lifetime - Residential
Limited 10 Year - Commercial

Features

- Excellent RF shielding properties - Helps cut cooling costs in hot climates
- Provides privacy, shading and offers excellent fading protection
- IEEE-STD-299 - RF Shielding Certification

Installation

- Water activated self adhesive
- Professional installer is recommended but can be installed by a homeowner

Care

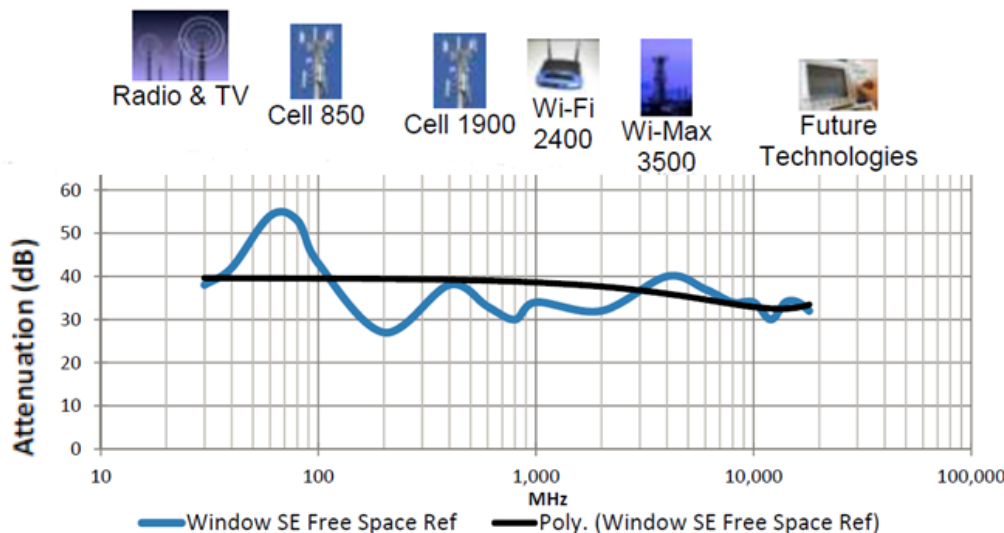

- To clean window film, wipe it gently with a soft, damp, non-abrasive cloth

Technical Data

% Visible Light Transmittance	22 "Low"
% IR Light Blocked	90+ "High"
% UV Light Blocked	99+ "High"
Total Solar Energy Rejected	76 "High"
Thickness	Standard thickness 2mil
Format	Sold per linear ft in 3, 4 or 5 ft widths @ 5 ft increments
Quantity	Minimum Quantity = 5 linear ft or (5 feet length X roll width)
Full Roll	100 ft long—Cutting and rolling fees apply to partial rolls
